WE INVITE YOU TO BE INSPIRED.
FROM OUR BOARD CHAIR AND EXECUTIVE DIRECTOR

In 1994, the Canadian Medical Hall of Fame (CMHF) was created to recognize and celebrate Canadian heroes whose work advances health and inspires the pursuit of careers in the health sciences.

After several years of expanding our national footprint and hosting the Induction Ceremony across the country we brought the event back home to London, Ontario to celebrate six new Inductees. It is with a deep sense of pride that we reflect upon the outstanding contributions of the 131 Canadians who have been recognized with induction into the CMHF; individuals who have shaped the landscape of health education, delivery and scientific discovery in our country, and who have made enduring and global health impacts. We continue to act on our mission in many ways:

• We recognize emerging health leaders and connect them with the contributions and advice of these remarkable health heroes.

• We make the Laureate tribute videos and achievement available to all Canadians on our website.

• We encourage and inspire thousands of science-minded and bright high school students to look at the career possibilities that await them in the health sciences.

• Locally, we connect students in grades 7 and 8 with the inspiring stories of the Laureates and with community health organizations at our Exhibit Hall.

This past year our Board of Directors undertook critical deliberations that will shape the future of the CMHF. We explored co-location options of our physical space to ensure that more Londoners, and visitors to London, will have the opportunity to be inspired by the stories of our Laureates.
We engaged in a strategic partnership with our long standing partner the Canadian Medical Association to create a more dynamic, impactful and interactive Virtual Exhibit Hall that will be available to all Canadians next year. Another strategic partnership with MD Financial Management will see the continued delivery of our national youth career exploration program - Discovery Days. We are excited about these initiatives as we get ready to celebrate 25 years of service in 2019.

On behalf of the Board of Directors of the Canadian Medical Hall of Fame, thank you to our partners, Laureates, donors, supporters, volunteers and visitors for helping to further our mission. Thank you for supporting us in our efforts to create role models for the next generation of Canadian health leaders.

HONOURING EXCELLENCE.
2018 INDUCTION CEREMONY

More than 570 health leaders and supporters gathered in London, Ontario, founding home of the CMHF, and in association with the Schulich School of Medicine and Dentistry, Western University, paid tribute to six new Inductees and their outstanding contributions to health in Canada and the world.

**Philip Berger, O.Ont MD CCFP FCFP FRCPC (Hon), Toronto ON**
A tireless advocate for all people who worked to promote refugees, methadone treatment, needle exchanges, documentation and recognition of the aftereffects of torture, an academic infirmary for the homeless, and clinical treatment of AIDS in Africa.

**B. Brett Finlay, OC OBC PhD FRSC FCAHS, Vancouver BC**
Co-author of the provocative bestseller, *Let Them Eat Dirt: Saving Your Child from An Oversanitized World*, his research in cellular microbiology has led to vaccines and treatments for drug-resistant infections.

**Vladimir Hachinski, CM MD  FRCPC  DSc  FAAN  FAHA  FRSC, London ON**
He has transformed our understanding, diagnosis, treatment and prevention of stroke and dementia, introducing the Hachinski Ischemic Score (HIS), now a standard for identifying the treatable components of dementia.

**Balfour Mount, OC OQ MD FRCSC LLD, Montreal QC**
Credited with coining the term “palliative care,” he recognized the need for special care to alleviate suffering and enhance dignity for dying patients and is known for achieving the integration of palliative care as integral to humane health care.

**Cheryl Rockman-Greenberg, MDCM FRCPC FCCMG, Winnipeg MB**
She devoted her career to bringing advanced medical knowledge and care to isolated and often vulnerable Indigenous populations, developing diagnostic tests, screening programs, and treatments for disorders once poorly understood.

**The late Emily Stowe, MD, Toronto ON**
The first female physician to practice medicine in Canada, she spearheaded the creation of the Woman’s Medical College and later helped found the Toronto Women’s Literary Guild, Canada’s first suffragette group.
CONNECTING GENERATIONS.
2018 DISCOVERY DAYS IN HEALTH SCIENCES

In partnership with Canadian universities, hospitals and research centres, we inform and excite Canada’s youth about the wide variety of career options in medicine and the health care field. By connecting high school students to world-class clinicians in real life settings, we are helping to build our future health workforce.

Twelve events took place in Vancouver, Calgary, Edmonton, Winnipeg, Thunder Bay, London, Hamilton, Kingston, Montreal, Quebec City, Halifax, St. John’s

STRONGER COMMUNITIES TOGETHER™
THE CANADIAN MEDICAL HALL OF FAME
AWARD FOR MEDICAL STUDENTS

The Canadian Medical Hall of Fame Award for Medical Students

CMHF Laureates cite qualities such as perseverance, collaboration and an entrepreneurial spirit as contributors to their success as national and world health leaders.

Canada’s medical schools are invited to identify a second year student who demonstrates these qualities. CMHF Award recipients received a cash award, complimentary travel and admission to the Canadian Medical Hall of Fame Induction Ceremony and the opportunity to meet and learn first-hand from our Laureates.

April 12, 2018 - London ON
The 2017 CMHF Award recipients met 2018 Inductees of the Canadian Medical Hall of Fame and also enjoyed a private networking breakfast with them and other Laureates.

We celebrate the achievements of the giants of health care in Canada to fuel our pride, but also to inspire the next generation of health leaders with world changing potential.

Through the CMHF Award we aim to:
• Call out the leaders among them
• Facilitate collaboration and mentorship so that they may also achieve significant impact in their own careers
• Challenge them to “think like a Laureate”
• Promote networking opportunities for shared support to foster a growing community of Canadian talent committed to improved care and health outcomes

2018 CMHF Award Recipients’ Feedback

“Seeing what the Inductees have accomplished, hearing their song choice and seeing their video helped us know them better and was deeply inspiring in terms of their achievements. It gave me a platform and perspective to understand what winning this award comes from and who the types of people are that are moving mountains like they are, and toward what I hope to achieve myself in the future.

Writing an essay about a Laureate in my application allowed me to reflect and dissect the attributes that I value in an individual who inspires me. In a way, this exercise lead me to set even higher goals and have a vision for my future medical career.”

WILLOW SQUIRES
2018 HIGH SCHOOL SCHOLARSHIP WINNERS

Annually, four young Canadians with stellar academic careers and a passion for helping others and improving lives are selected to receive a $4,000 scholarship toward an undergraduate degree in a health-sciences-related field at a Canadian university.

ANNE XUAN-LAN NGUYEN, Montreal QC
attending McGill University, Med-P Preparatory Program

“Thank you for encouraging me to pursue a journey in the field of medicine. This scholarship has reinforced my desire to assist those in need and bring innovation to health care in Canada.”

EMILY LAM, Port Moody BC
attending Simon Fraser University, Bachelor of Science in Health Science

“As I start my journey into higher education, this award will help me to pursue my passions and work towards my aspiration to become a pediatric cardiologist and a health and social innovator. I am truly appreciative of your support in helping me and other young leaders follow our dreams and make a difference in health care.”

ERIN PARNA-GILE, Oro-Medonte ON
attending McMaster University, Life Sciences

“It is inspiring to learn about people through the CMHF and the many different areas in which individuals influence the lives and well-being of others. Receiving this scholarship reinforces my desire to pursue my passion of studies in human psychology, neuroscience and behavior, hopefully towards a career that involves clinical practice and/or research.”

WILLOW SQUIRES, St. John’s NL
attending Memorial University of Newfoundland, Bachelor of Science

“In addition to easing some of the financial burden of education, this scholarship encourages me to maintain a strong work ethic as I pursue my dream of a career in the medical field. It has shown me the merits of my hard work and dedication towards academics and community involvement, and for that I am immensely grateful.”

PRESERVING HISTORY.

EXHIBIT HALL

2,100 visitors from 28 cities across Canada and 13 other countries explored our Exhibit Hall.

“Interesting and inspiring hall of fame honoring those whose work has contributed to our ability to stave off disease and maintain health. Keep up the good work!”
— A. SANUSI, NEW YORK, USA

“Amazing!! As a med student, it was so fascinating learning about the many Canadian trailblazers in medicine.”
— P. SLODOVNICK, LONDON

“Great to see so much Canadian history in one place. Love learning about medical conditions and treatments improved through Canadian based research. Nicely displayed and fun to read through the info.”
— K. ROBERTS

“Merci pour votre acceueil. Cette exposition est ties interessante.”
— A&F GORNISEC, FRANCE
INSPIRING GENERATIONS.

MUSEUM SCHOOL AND CLASS TRIPS

Students in grades seven and eight from Louise Arbour, Notre Dame, Jean Sauvé, New Sarum, Kensal Park and St. Bernadette schools moved their classroom to our Exhibit Hall in an interactive environment that touches on all aspects of school curriculum. They learned about the Laureates and Canada’s rich medical history, visited Banting House, conducted science experiments and heard from several community health presenters, all the while imagining and writing about their own health discovery in the future.

Intermediate elementary classes and community groups enjoyed our Superheores of Health Care program offered for full and half days.
